A HANDSOME IMPROVEMENT
To Be Made at Greenwood Cemetery—A Magnificent Stone Arch and Ornamental Gates.

That beautiful "city of the dead," Greenwood, has always had one drawback to mar its many charms to the artistic eye—the entrance gate was altogether out of harmony with the rest of the surroundings. The association appreciated this as much as the public, and has arranged to remove the objectionable feature and erect in its place a stately and imposing stone arch, with highly ornamental gates of iron.

A representation of the proposed gates accompanies this article, and gives a very good idea of the improvement it will make in the outer appearance of the cemetery when completed. The design is by Brown & Hazlett, the well known architects and engineers. It includes a very massive square-topped arch of wrought Olympic stone. Double gates of ornamental iron will swing beneath the arch, and on each side will be double gates for foot passengers, each gate eight feet wide. The arch will be twenty-eight and one-half feet in height, and the straight columns on the side sixteen and one-half feet. The stone work will be three feet thick, and from the design here presented it will be seen that the new entrance will be as creditable as the rest of the cemetery now is.

A WHEELING MAN,

Mr. J. V. Braden, Figures Prominently in Freight Agents' Meeting.

At the meeting of the National Association of Railway Freight Agents being held in New York, James V. Braden, secretary and treasurer of the Local Freight Agents' Association, of Wheeling, read the report of the committee on manifests. The report was designed to arrive at some practical and feasible method of dealing with the present intricate system of manifesting freight.

The report pointed out that there are 114 different forms of manifest in use in the United States, and that in many stations nineteen are used. The committee advocated a uniform blank that would answer for all stations. It would simplify work, as at the present time there are 20,000 different classifications of goods passing over railroads in the country, while in England there are only 2,300.

The report summed up the reforms desired under the following heads: First, a marginal uniform classification;

second, tariffs for each line uniform in size and color; third, through billing when possible, settlements to be made through auditor's offices with a constant view of extending the system; fourth, the adoption of a uniform manifest to be known as local agents' form 1. The report met with the unanimous approval of the delegates, and was accepted.

WILLIAM HARRISON ON TRIAL

For the Murders on the Thomas O'Brien Last Fall.

The Marshall county circuit court convened at Mountsville again yesterday morning, Special Judge J. Alex. Ewing on the bench. The felony case of the state vs. William Harrison was called. A jury was paneled and the statements were made, after which the court adjourned for the purpose of allowing J. A. Howard to go to Ohio county to try a case before a justice of the peace. The jury had to be kept together on a large expense, and when a juror asked to go to the bedside of a very sick wife the court could not excuse him.

Harrison expressed his willingness to plead guilty to unlawful assault, the same offense of which George Mager was convicted, but the state refused to accept this plea.

A motion for a new trial was made in Mager's case, and he was admitted to bail pending its argument on June 18.

PROPERTY TO BE SOLD.

Monsignor J. T. Sullivan will Dispose of his Lots on Wheeling Hill.

Very Rev. Monsignor J. T. Sullivan has transferred to George J. Matheson and T. S. Riley his property on the east side of Wheeling hill, extending to the hill top, to be sold as they deem best. The transfer includes the wine presses and all other personal property on the ground. Monsignor Sullivan is desirous of disposing of the property and settling on his business affairs, and owing to his age and the state of his health recently he does not care to be burdened with the care of the details himself, and he has therefore constituted the gentlemen named his trustees for that purpose.

The property is mainly in vineyard, and includes a residence and several other buildings. The time and terms of the sale are left to the discretion of the trustees. The papers were filed in Clerk Hook's office yesterday.

You can secure a Watch and pay for it on weekly or monthly payments at McNANEY'S, 2137 Market street.

CLOTHING AND FURNISHINGS—KRAUS BROS.

KRAUS BROS.

There is more than one way of throwing away money. For instance, pay two prices to some swell tailor—a good deal goes for his name. Another way, buying poorly made, ill-fitting ready-made clothing.

Use Common Sense in Buying Your Clothing.

It is merely a question of good tailoring—good trimmings, perfect fitting and a reasonable price. This combination means satisfaction every time, and an examination of our stock will convince you that our Clothing combine all these good points.
